OBJECTIVE

College freshman with a strong work ethic and passion for computer science and technology. Seeking internships and opportunities to deepen my hands-on experience and knowledge and develop specialization.

EDUCATION

University of California, Irvine Sep 2023 - Jun 2027

Bachelor of Science in Computer Science

- Related Coursework: AP Computer Science Principles, AP Computer Science Applications, Boolean Logic and Discrete Structures, Python Programming and Libraries (Accelerated)
- Languages: Currently learning Python, Java, C#
- Management Tools: Git/Github, Trello

EXPERIENCE

LBUSD Technology & Information Services Branch Internship Jun 2022 - Aug 2022

Positions Held: Intern

- Assisted staff in troubleshooting issues and provided technical support and solutions.
- Learned and managed the inner workings of an IT department using communication services and applications.
- Worked with other interns to upgrade chromebooks and iMacs within multiple school sites, massively increasing deployment speed by six-times
- Documented and edited IT reports, and performed inventory management.

EXTRACURRICULAR ACTIVITIES

Computer Science & Cybersecurity Club - High School Aug 2019 - Jun 2023

Positions Held: Director of Workshop Development

- Grasped fundamentals about topics such as general programming, software development, security, cryptography, robotics, game development, etc.
- Helped coordinate and host general meetings/workshops.
- Competed in the Cyberpatriots XIII and XIV competitions with States Gold Tier placement.

Video Game Development Club at UCI Sep 2023 - Present

- Programmer for the game "*Super Duper Epik 2D Platformer*".
- Responsible for developing core game mechanics, including death scripts, life implementation, etc.
- Helped review new commits to the game, assisting with merge conflict fixes.

VOLUNTEERING

Madrona Marsh Preserve and Nature Center, Torrance Jul 2022 - Present

Positions Held: *Advanced Restoration Crew Member*

- 150+ hours of volunteering time.
- Assisted with the maintenance and habilitation of the natural environment and fauna, in addition to learning about ecological safety and provisions.
- Helped plan and execute multiple large-scale projects, including *Make a Difference Day 2022* and *Earth Day 2022*, increasing the range of ecological life by 10% and doubling the number of native flora.
- Collaborated with fellow crew members to plan and host weekly volunteering events.
- Currently developing outreach programs to boost volunteer count and develop the Madrona Marsh community.
